

REPUBLICANS' BACK TO THE FUTURE PLAN

Taking Us Back to Failed Policies

This year, the difference between Democrats and Republicans could not be clearer:

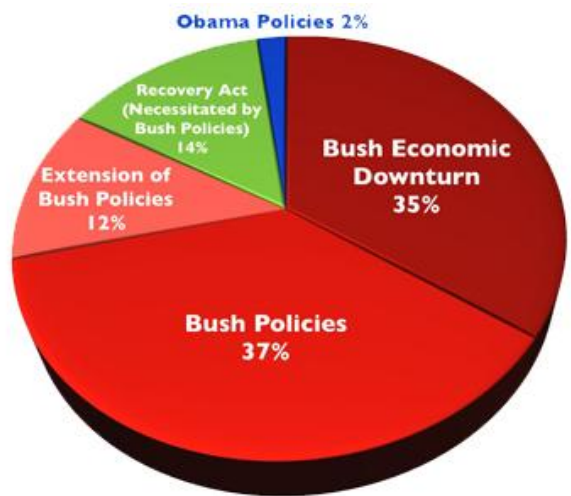

Republicans want to take us back to President Bush's failed policies that led to a recession and massive deficits, while Democratic policies are fighting for the middle class and moving our nation forward.

We know what the Republican agenda is – even before they announce it this month:

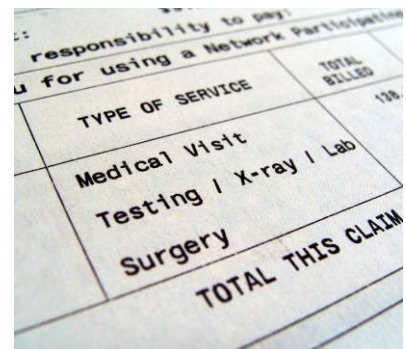

Privatize Social Security – jeopardizing the retirement security for American workers.

Explode the deficit – adding \$700 billion to the deficit for Bush tax cuts for the wealthy that won't create jobs.

Outsource American jobs – increasing outsourcing by giving tax loopholes to big corporations.

Put insurance companies back in charge of your health care and ending new protections for Americans.

Repeal common sense Wall Street reform – once again exposing consumers to the reckless behavior that led to a meltdown that cost 8 million jobs.
